## MANAGED DISTRIBUTIONS

While the Fund does not have a specific level of distribution, the Fund seeks to generate monthly income in a tax efficient manner. Under current provisions of the Internal Revenue Code, distributions in excess of the Fund’s current and accumulated earnings are treated as a tax-free return of a shareholder’s investment to the extent of the shareholders basis in the Funds shares, and generally as capital gain thereafter. A return of capital, which for tax purposes is treated as a return of a shareholder’s investment, reduces a shareholder’s basis in the Fund’s shares, thus reducing any loss or increasing any gain on a subsequent taxable disposition of Fund shares. Current return of capital estimates for the Fund are available at the website [www.neofunds.com](http://www.neofunds.com) under the Fund’s 19a-1 Notices.
